PART 1: Non-financial Performance Information

1. Introduction

Chapter 6 section 41(d) of the Local Government: Municipal Systems Act 32 of 2000, a municipality is required to establish a process of regular reporting to: - the council, other political structures, political office bearers and staff of the municipality and; - the public and appropriate organs of state. The Local Government: Municipal Planning and Performance Management Regulations of 2001, further enjoins a municipality to ensure that its performance management system - Determines the frequency of reporting and the lines of accountability for performance.

Section 52(d) of the MFMA requires that the Mayor must within 30 days of the end of each quarter, submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality.

Chapter 3 section 28(1) of the Local Government: Municipal Performance Regulations for Municipal Managers and Managers Directly Accountable to Municipal Managers, 2006 also require that there must be quarterly performance review conducted. The Performance management system is adopted before or at the same time as the commencement of by the municipality of the process of setting key performance indicators and targets in accordance with its integrated development plan.

This quarterly report is reflection on the *second* quarterly financial and non- financial performance reporting. It is an assessment of the corporate performance of the targets and Key performance Indicators (KPIs) against the Top-layer Service Delivery Budget and Implementation Plan (SDBIP), Departmental (technical) scorecards and the Performance Agreements of the incumbents.

The report covers progress made with the actual implementation of the municipality's scorecard. Reporting is done at the corporate level against the Top-Layer SDBIP, Departmental (technical) scorecard and the Performance Agreements.

The reports primarily reflect on the quarterly targets and KPIs and focuses on performance against the *second* quarter targets and KPIs. Further it provides reasons for under performance in the previous quarter and informs on measures to be taken to address under performance in the following quarter.

1.1. The Executive Summary

This quarterly report is compiled in terms of MFMA Schedule C: In-Year Reporting of the Municipal Budget and Reporting Regulations of 2011.

The second quarterly performance assessment will be conducted virtually on 23 January 2025.

The purpose of the review will be to:

1. To conduct and assess the Second (2nd) Quarter SDBIP Performance of the 2024/25 financial year

2. To respond to measures intended to be taken to address under-performance

The consolidated second quarterly performance report reflects the actual performance of the various departments in implementing the Technical SDBIPs and Top Layer SDBIP. The report takes stock that during the second quarter much has been achieved and performance in terms of service delivery can be estimated or rated averagely between 81% (for this quarter only). It should also be noted that there will not be adverse material variances in relation to budget performance.

It has been noted that the submission of reports and Portfolio of Evidence (P.o.E) by Senior Managers has improved but the institution is still having a challenge from complying with the approved Process Plan and the applicable legislative framework in this respect. This non-compliance will adversely affect our social contract we entered into with the community in the beginning of the financial year. It is the constitutional mandate that we remain accountable and responsive to the needs of the community. Therefore, it is incumbent upon all Senior Managers to improve the implementation of SBDIP of the council.

When submitting this report to the Internal Auditors it shall be accompanying by the individual analysis of departments.

1.2. Consolidated performance of the municipality in implementing the SDBIP

1.2.1 National KPA 1: Basic Service Delivery

1.3 Summary of Non-Financial Performance Results

The SDBIP is essentially the municipality's business plan and is an integral part of the financial planning, implementation and measurement process. The SDBIP functions as the connection between the strategic plan (IDP), Budget and management performance agreement, and includes detailed information on how the budget will be implemented, by means of forecast, cash flows, Service Delivery targets and indicators.
